

**FHM
ANALYSIS & REPORTING
FOCUS GROUP**

(Emphasis on P-3)

2-1-2006

8:00 – 10:00 AM

OBJECTIVES:

1. Communicate where we have been successful
2. Communicate where we have fallen short
3. Draft resolutions that will enhance #1 and remedy #2

TOPICS TO PONDER:

- Are P3 analysis resources and work being allocated well?
- Are we on track to accomplish what is in our “Reporting Plan”?
- What opportunities are we missing?
- What are the obstacles being encountered?
- Is the Forest Health Highlights template working?
- Suggestions from the floor?

2006 ANALYSIS & REPORTING

RESOLUTIONS:

- Support continued funding of FHM analysts for such purposes as providing expertise and support to cooperators, integrating more external data, and meeting reporting requirements. For example, analyzing the impact of defoliation on productivity & mortality.
- Identify key state staff to work with FHM analysts on annual highlights and identify issues important to feature in reporting
- Initiate review of FHM reporting plan and status of implementation.
- Work with FHP leadership to evaluate opportunities to integrate reporting responsibilities, FHM, FHP, into one reporting plan, (maintaining flexibility) as FHM is a major reporting arm of FHP.
