

## **Risk Map Focus Group Session**

### **Resolutions**

- 1. We request the Risk Map Oversight Team to develop a process that will fully complete a rigorous validation of host data layers for the 2012 NIDRM by involving foresters who can conduct field checks and provide feedback on information credibility.**
- 2. The Risk Map Modeling Team commits to helping FHTET in 2010 build pest range data layers for use in the 2012 NIDRM.**
- 3. The Risk Map Modeling Team commits to building draft pest models in time for the 2011 FHM Workshop.**

**4. We request the FHM Management Team to set aside time for an all-day session at the 2011 FHM Workshop for the Risk Map Focus Group to interactively work together on reviewing and revising a draft national risk map.**
